# Fort Leavenworth Wayside Tour

The oldest continuously active fort west of the Appalachian Mountains

Colonel Henry Leavenworth established Fort Leavenworth on May 8, 1827. The mission of the post was to protect the western frontier, to keep peace among the Native American tribes resettled into this area and to provide escort on the newly opened Santa Fe Trail. The post is a major historical site, and its residents are proud to share with visitors their part of our national military heritage. The fort is also an active military post, home to the Combined Arms Center.

During its early history, Fort Leavenworth was an important command and control headquarters for the war in the far west, as well as a major supply transshipment point for western supplies to the east.

The forerunner of the U.S. Army Command and General Staff College was established in 1881. Tens of thousands of U.S. and international officers have attended the Army's senior tactical college to become "Leavenworth graduates."
